## QUALITY AND CERTIFICATIONS :-

We here at RLUX, follow strict quality control protocols and have partnered with sourcing companies known for their outstanding records in maintaining impeccable standards of their supplied components. With our R&D Lab, assembly lines and a round-the clock team of well-equipped engineering and support staff, we strive to deliver innovative, reliable and efficient lighting solutions befitting our client's specific needs. We hope to deliver only the best in terms of expectations and the quality of our services, and we continuously audit and upgrade ourselves to meet them in an orderly and timely fashion.

Our ingenious approach to R&D follows a holistic philosophy that combines the most advanced LED sources, driver technologies, optics and form into each product. The result is highly-reliable luminaire solutions that reduce energy consumption, extend lifetimes and maximize illumination performance and quality. Our products are rated for their safety by UL: Underwriters Laboratories Inc., ETL, DLC and certified for RoHS compliance of restricting the use of the six hazardous materials found in electrical and electronic products.
